a) *New standards issued but not adopted*

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective and determined that the following may have an impact on the Company:

<u>Statement of Cash Flows ("IAS 7")</u>

In January 2016, the IASB issued amendments to IAS 7 "Statement of Cash Flows". The amendments will require entities to provide disclosure that enables users of financial statements to evaluate changes in liabilities arising from financing activities, including changes arising from cash flows and non-cash changes. The amendments are effective for annual periods beginning on or after January 1, 2017, with earlier application permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

Income Taxes ("IAS12")

In January 2016, the IASB issued amendments to IAS 12 "Income Taxes". The amendments were related to the recognition of deferred tax assets for unrealized losses, which clarified how to account for deferred tax assets related to debt instruments measured at fair value. The amendments are effective for annual periods beginning on or after January 1, 2017, with earlier application permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

Share-based Payments ("IFRS 2")

In June 2016, IASB issued amendments to IFRS 2 "Share-based Payments". The amendments clarified the standard in relation to the accounting for cash-settled share-based payment transactions that include a performance condition, the classification of share-based payment transactions with a net settlement features and the accounting for modifications of share-based payment transactions from cash-settled to equity-settled. The amendments are effective for annual periods beginning on or after January 1, 2018, with earlier application permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

Financial Instruments: Classification of Measurement ("IFRS 9")

IFRS 9, Financial Instruments, will replace IAS 39, Financial Instruments: Recognition and Measurement. The new standard includes guidance on recognition and derecognition of financial assets and financial liabilities, impairment and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

Revenue from Contracts with Customers ("IFRS 15")

In April 2016, the IASB issued amendments to IFRS 15 "Revenue from Contracts with Customers". The amendments clarified three aspects of the standard (identifying performance obligations, principal versus agent considerations and licensing) and provided some transition relief for modified contracts and completed contracts. The amendments are effective for annual periods beginning on or after January 1, 2018 (same effective date as IFRS 15 itself), with earlier application permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

(Canadian dollars)

Leases ("IFRS 16")

IFRS 16, *Leases,* was issued by the IASB in January 2016, and will replace International Accounting Standards ("IAS") 17, "Leases". IFRS 16 will bring most leases on-balance sheet for leases under a single model, eliminating the distinction between operating and finance leases. Lessor accounting remains largely unchanged and the distinction between operating and finance leases is retained. The new standard effective for annual periods beginning on or after January 1, 2019, with early application permitted if IFRS 15 has also been applied. The Company is currently evaluating the impact of this standard on its consolidated financial statements.
