**WAVEFRONT ENERGY & ENVIRONMENTAL SERVICES INC.**

**ENTERS INTO AGREEMENT WITH ASPEN OPERATING COMPANY, LLC  
TO IMPLEMENT POWERWAVE™ IN NORTH CENTRAL TEXAS**

EDMONTON, Alta Dec 17, 2007/ Wavefront Energy and Environmental Services Inc. ("Wavefront"), a leader in technology development and implementation for improved oil recovery and optimized groundwater remediation is pleased to announce that it has entered into an agreement with Aspen Operating Company, LLC of Fort Worth, Texas to implement Powerwave at two separate leases currently under waterflood.

Wavefront President and CEO Brett Davidson stated, "An interesting reality about the oil industry is that approximately 70% of our daily oil supply comes from reservoirs discovered prior to 1970. As such, oil producers, large or small, will be required to utilize a variety of legitimate technologies in order to maximize the recovery of oil that is stranded in aging reservoirs throughout the globe. Aspen, with a strategic focus of applying advanced solutions to optimally produce their reservoirs, has identified Powerwave as a technology that when combined with improved or enhanced oil recovery approaches (i.e. waterfloods, CO<sub>2</sub> floods, chemical flooding) can potentially lead to large gains in overall oil recovery. Wavefront is pleased to be working with a technology focused company such as Aspen and we look forward to expanding our relationship with them."

***About Wavefront Energy and Environmental Services Inc.***

Wavefront is a technology-based company with a focused, strategic plan to leverage the value of our intellectual property in order to maximize oil production recovery operations, as well as provide additional solutions for environmental applications.

Cautionary Disclaimer – Forward Looking Statements

Certain statements contained herein regarding Wavefront and its operations constitute "forward-looking statements" within the meaning of Canadian securities laws and the United States Private Securities Litigation Reform Act of 1995. All statements that are not historical facts, including without limitation statements regarding future estimates, plans, objectives, assumptions or expectations or future performance, are "forward-looking statements". In some cases, forward-looking statements can be identified by terminology such as "may", "will", "should", "expect", "plan", "anticipate", "believe", "estimate", "predict", "potential", "continue" or the negative of these terms or other comparable terminology. We caution that such "forward-looking statements" involve known and unknown risks and uncertainties that could cause actual results and future events to differ materially from those anticipated in such statements. Such factors include fluctuations in the acceptance rates of Wavefront's Powerwave and Primawave Processes, demand for products and services, fluctuations in the market for oil and gas related products and services, the ability of Wavefront to attract and maintain key personnel, technology changes, global political and economic conditions, and other factors that were described in further detail in Wavefront's continuous disclosure filings, available on SEDAR at [www.sedar.com](http://www.sedar.com). Wavefront expressly disclaims any obligation to up-date any "forward-looking statements", other than as required by law.
